

INDEX FOR VOLUME 34

ARTICLES

- Bennett, B. M. Note on the relation between Kendall's tau and the Cronholm-Revusky test. 125-126.
- Bentler, P. M. Some extensions of image analysis. 77-83.
- Brewer, James P. (with John R. Hills). Univariate selection: The effects of size of correlation, degree of skew, and degree of restriction. 347-361.
- Broverman, Donald M. (with Edward L. Klaiber) Negative relationships between abilities. 5-20.
- Browne, Michael W. Fitting the factor analysis model. 375-394.
- Browne, Michael W. (with Walter Kristof). On the oblique rotation of a factor matrix to a specified pattern. 237-248.
- Carroll, John B. Philip Justin Rulon. 1-3.
- Darroch, John N. Some further inequalities and an identity in factor analysis. 45-49.
- David, H. A. (with James E. Norman). Restricted ranking. 85-110.
- Earl, Robert W. (with David G. Wolter). The asymptotic values of response probabilities in the Audley-Jonckheere learning model. 203-214.
- Elashoff, Janet Dixon. Optimal choice of rater teams I: Theory. 21-32.
- Elashoff, Janet Dixon. (with Donald E. Spiegel). Optimal choice of rater teams II: Applications. 33-44.
- Entwisle, Doris R. (with Dennis L. Knepp). Testing significance of differences between two chi-squares. 331-333.
- Feldt, Leonard S. A test of the hypothesis that Cronbach's alpha or Kuder-Richardson coefficient twenty is the same for two tests. 363-373.
- Green, Bert F., Jr. Best linear composites with a specified structure. 301-318.
- Greeno, James. (with Theodore Steiner). An analysis of some conditions for representing N state Markov processes as general all or none models. 461-487.
- Harman, Harry H. Retrospective anticipation. 407-420.
- Hills, John R. (with James K. Bresser). Univariate selection: The effects of size of correlation, degree of skew, and degree of restriction. 347-361.
- Horan, C. B. Multidimensional scaling: Combining observations when individuals have different perceptual structures. 139-165.
- Jennrich, Robert I. (with Stephen M. Robinson). A Newton-Raphson algorithm for maximum likelihood factor analysis. 111-123.
- Jöreskog, K. G. A general approach to confirmatory maximum likelihood factor analysis. 183-202.
- Jöreskog, K. G. Efficient estimation in image factor analysis. 51-75.
- Klahr, David. A Monte Carlo investigation of the statistical significance of Kruskal's nonmetric scaling procedure. 319-330.
- Klaiber, Edward L. (with Donald M. Broverman). Negative relationships between abilities. 5-20.
- Knepp, Dennis L. (with Doris R. Entwisle). Testing significance of differences between two chi-squares. 331-333.
- Koopman, Raymond F. (with Ledyard R. Tucker and Robert L. Linn). Evaluation of factor analytic research procedures by means of simulated correlation matrices. 421-459.

- Kristof, Walter. Estimation of true score and error variance for tests under various equivalence assumptions. 489-507.
- Kristof, Walter. (with Michael W. Browne). On the oblique rotation of a factor matrix to a specified pattern. 237-248.
- Levitt, Harry. (with M. Treisman). Control charts for sequential testing. 509-518.
- Linn, Robert L. (with Ledyard R. Tucker and Raymond F. Koopman). Evaluation of factor analytic research procedures by means of simulated correlation matrices. 421-459.
- Lord, Frederic M. Estimating the true-score distributions in psychological testing (An empirical Bayes estimation problem). 259-299.
- McGuire, Timothy W. More on least squares estimation of the transition matrix in a stationary first-order Markov process from sample proportions data. 335-345.
- Millward, Richard B. Derivations of learning statistics from absorbing Markov chains. 215-232.
- Norman, James E. (with H. A. David). Restricted ranking. 85-110.
- Ramsay, J. O. Some statistical considerations in multidimensional scaling. 167-182.
- Robinson, Stephen M. (with Robert I. Jennrich). A Newton-Raphson algorithm for maximum likelihood factor analysis. 111-123.
- Rule, Stanley J. Average exponent from magnitude production. 233-236.
- Spiegel, Donald E. (with Janet Dixon Elashoff). Optimal choice of rater teams II: Applications. 33-44.
- Steiner, Theodore. (with James Greeno). An analysis of some conditions for representing N state Markov processes as general all or none models. 461-487.
- Treisman, M. (with Harry Levitt). Control charts for sequential testing. 509-518.
- Tucker, Ledyard R. (with Raymond F. Koopman and Robert L. Linn). Evaluation of factor analytic research procedures by means of simulated correlation matrices. 421-459.
- Wolter, David G. (with Robert W. Earl). The asymptotic values of response probabilities in the Audley-Jonckheere learning model. 203-214.

REVIEWS

- Baker, Frank B. Review of *Computer Simulation Techniques*, by Thomas H. Naylor, Joseph L. Balintfy, Donald S. Burdick & Kong Chu. 130-131.
- Baker, Frank B. Review of:
Pattern Recognition: Theory, Experiment, Computer Simulations and Dynamic Models of Form Perception and Discovery, edited by Leonard Uhr;
The Modeling of Mind, edited by Kenneth M. Sayre & Frederick J. Crosson. 127-130.
- Crano, William D. Review of *The Discovery of Grounded Theory Strategies for Qualitative Research*, by Barney G. Glaser & Anselm L. Strauss. 396-397.
- Diamond, Esther E. Review of:
Scales for the Measurement of Attitudes, by Marvin E. Shaw & Jack M. Wright;
Sociological Measurement: An Inventory of Scales and Indices, by Charles M. Bonjean, Richard J. Hill & S. Dale McLemore. 395-396.
- French, John W. Review of *Handbook of Multivariate Experimental Psychology*, edited by Raymond B. Cattell. 252-256.
- Green, Bert F., Jr. Review of *Psychometric Theory*, by Jim Nunnally. 131-133.
- Gross, Susan. Review of *Latent Structure Analysis*, by Paul F. Lazarsfeld & Neil W. Henry. 249-252.
- Guttman, Louis. Review of *Statistical Theories of Mental Test Scores*, by Frederic M. Lord & Melvin R. Novick. (with contributions by Allen Birnbaum). 398-404.
- Horn, John L. Review of *Modern Factor Analysis*, by Harry H. Harman. 134-137.

- Noak, John R. Review of *Problems in Human Assessment*, by Douglas N. Jackson & Samuel Messick. 519-520.
- Ragsdale, Ronald G. Review of *Graphs, Dynamic Programming and Finite Games*, by Arnold Kaufmann. 404-405.
- Wardrop, James L. Review of *The Measurement and Prediction of Judgment and Choice*, by R. Darrell Bock & Lyle V. Jones. 133-134.
